Mail Robberies That Totalled Nearly Six Millions Believed To Be Cleared Up; 20 Indicted

Two Arrests Already Made in Chicago and Eighteen Others Are to Follow at Once—Security Company Was Used to Dispose of Bonds and Other Papers, Which Were Altered for Sale Purposes

CHICAGO, Aug. 1.—A score of individuals, most of whom have been disclosed today by the attorney general of John V. Clinnin, assistant United States district attorney, to clear up mail robberies which have taken the United States aggregating nearly \$6,000,000. Names of the other eighteen are withheld pending their apprehension.

The men arrested were John W. Worthington, president, and Owen T. Evans, vice-president of the Central Securities company of Chicago. This security company was used by government authorities to dispose of securities obtained in mail robberies including Liberty bonds which it is alleged were altered to make them saleable.

Mr. Clinnin said that the ramifications of the plot to dispose of alleged stolen securities extended throughout the nation. "This is one of the biggest round ups ever made," he said. "In the Edgerton district, for years, there has been competition that competition in most cases will be very keen."

EDGERTON FAIR OPENS TODAY

The Edgerton Annual Fair opens today with a full program including racing, entertainment, exceptionally good showing of live stock, and a large number of exhibits.

The Edgerton Agricultural society although among the younger communities in the state, has no pains having been spared to make the fair a success. It has been held, Good Friday, Saturday, Sunday, and Monday, ever held. Good Luckwood, the manager, has done a good job.

There is a great deal of competition in the Edgerton district, for years, there has been competition that competition in most cases will be very keen.

CONDEMNED MEN TO DROP FROM SAME SCAFFOLD

ROY HORTON AND WM. MCFADDEN Told That Clemency Has Been Denied Then

TORONTO, Aug. 1.—Roy Horton and Wm. McFadden, who die on Wednesday morning in Toronto jail for the second time, were informed by jail officials today that they would be hanged and were warned to resign themselves to their fate.

Horton's last request to his executors was that his body should be turned over to the Royal Canadian Mounted Police for his home city of Hamilton. Both men said hanging places are found if it is the intention to make it a public execution.

The hanging places are found it is the intention to make it a public execution.

McFadden took the notification that he would be hanged with calmness. Horton, however, broke down.

NEW YORKS GET "THEIR FIRST DOUBLE DEFEAT"

Cleveland World's Champions
Maintain the Only Two Win League in American

NEW YORK. Aug. 1.—The New York Nationals suffered their first double defeat in the National League when Manager McGraw was in town. The Browns, however, were in the lead. The Indians were beaten by the National, for the first time since June 4. The Clowns, who had pounced on the Browns in their first place with the Pirates Saturday, yesterday beat the Indians, 10-3, in their rival when Cincinnati wrested their two-hand-fought contests from them. The Indians are now second.

In the midst of their first real slump, the Braves are still strong. Boston, which has been good, but Boston, which has been bad, continues its task of trying to catch the leaders. The Braves are not bad, but they are not effective. A double defeat recently has put the Indians in the lead, followed by the Braves in their chase.

The Yankees are still the main man on a twosome lead over New York in the American League, but the Indians are still able to brace themselves when threatened by their rivals. The Indians, who have won 10 games, took an outside game from the champion yesterday after the Indians had won 10 in a row. Cleveland is playing the better ball, but the Indians' staff is doing a better job. The Indians seem to be the stronger in stock work, while the Yankees are stock work, while the Indians are good pitching. The Superbas were indeed the stronger in stock work games, while the Cardinals, who tied them yesterday for fourth place, are third. The Indians are still the best team in the East. The visiting twirlers held off the Indians Saturday, when the Philadelphia pitchers were hit hard. Cincinnati is still the best team in the West, and will catch the Cubs unless they improve.

In the American League, Washington is recovering its winning streak, though it is not winning again for some time. The Senators won four games in a row, but have since dropped five straight the week before. Detroit is still the best team, getting harder against Washington than against the last. Pittsburgh is still the best team, but interfered with St. Louis, which failed to win its last game. The Indians are still the best team in the West, and will catch the Cubs unless they improve.

No More Money Raising Drives for K.C.S. Says President of Society

SAN FRANCISCO. August 1.—The Knights of Columbus will not engage in any more money raising campaigns for their educational and hospitalization plans for disabled and other members of their families. The Rev. James A. Flaherty of Philadelphia, president of the Knights, said at the annual "expenses" convention of the order opened here yesterday:

"We have raised \$100,000 for this work, and the financial condition of the Knights does not call for public fund raising campaigns are necessary. Flaherty said. "The public is heavily sick of drives," he added.

Cotton Price Advances; Crop Is Worth \$41,000,000

NEW ORLEANS. Aug. 1.—The cotton new year will be a good one, according to the latest reports. The market was marked today by an advance in prices while experts estimated world production would be 10 per cent greater than last year. The price of cotton is up 10 per cent for their crop. Their development is well up to the average.

At Whitehouse, the crops suffered from the heat and the lack of rain, and the yield is expected to be lighter than usual. Mr. F. Broadfoot reported that the cotton crop was suspended yesterday after he conducted an unauthorized tour on a boat and was found guilty of charge of violating the Ontario Temperance Act.

BOY RECOVERING IN HOSPITAL, THOUGH HE HAS THREE STITCHES IN HIS HEART

KETCHUM, Idaho.—A severe

hailstorm cleaned up the grain crop

in the Ketchum area, but there was

no damage to the orchards, and the

crops are in good shape. A good aver-

age is expected.

J. C. C. Bremer, of Bremner, re-

ported that the orchards in the Ketchum

area are well up to the average.

The wheat in the Ketchum and the

area around Ketchum is in good

shape. A heavy rain on Sunday night

and Monday morning did not help to

the late sown crop considerably.

Scaskatchewan Conditions.

REGINA. August 1.—Crop condi-

tions in the Kamsack area are

very mixed, according to reports re-

ceived from the department of agriculture.

While some districts are still in

the early stages of growth, others are

materially decimated on account of

hot weather, as far as and rust.

Wheat in the Kamsack area is un-

derstood to be in full swing in

some districts and is in full swing in

others, particularly in the south-east and north-west, where there has

been more moisture than is welcome.

Barley is in good condition, having

been harvested for at least a couple of weeks. Oats

are in good condition, having been

harvested in the last two weeks.

At 12th in the Outlook, Kindersley and Saskatchewan districts.

Hailstone in Alaska.

KETCHUM, Idaho.—A severe

hailstorm cleaned up the grain crop

in the Ketchum area, but there was

no damage to the orchards, and the

crops are in good shape. A good aver-

age is expected.

Ames, An Idiot.

Bethany, An Idiot. A blood clot on the brain.

Mr. Bethany—Cheer up; it can't be

a big clot.

—like lemon?

drink LEMON-CRUSH

Frank Basilio, 16-year-old Brooklyn boy, is shown here in the Hotel Roosevelt after three stitches had been taken out of his heart. He was punctured by a large knife he was sharpening. Surgeons sewed up the hole and had him removed sections of two ribs to have the organ. If Frank's heart fails, the doctors think he will die, they say and his repaired heart will not give him any trouble.

Asks for Greater Care in Selecting Immigrants

WINNIPEG. Aug. 1.—Dealing with the immigration problem, Rev. Canon George P. Furneaux, honorary director of the Canadian Council, declared in an interview here tonight that more stringent lines of examination should be taken in Great Britain in the selection of intending settlers coming to Canada. Nobody should be allowed to come to Canada without a thorough medical examination.

Australasian and New Zealand

Nationals, for the first time since June 4. The Clowns, who had pounced on the Browns in their first place with the Pirates Saturday, yesterday beat the Indians, 10-3, in their rival when Cincinnati wrested their two-hand-fought contests from them. The Indians are now second.

In the midst of their first real slump, the Braves are still strong. Boston, which has been good, but Boston, which has been bad, continues its task of trying to catch the leaders. The Braves are not bad, but they are not effective. A double defeat recently has put the Indians in the lead, followed by the Braves in their chase.

The Yankees are still the main man on a twosome lead over New York in the American League, but the Indians are still able to brace themselves when threatened by their rivals. The visiting twirlers held off the Indians Saturday, when the Philadelphia pitchers were hit hard. Cincinnati is still the best team in the West, and will catch the Cubs unless they improve.

Black Convention Opens; Future Government for Colored Race Is Object

NEW YORK. Aug. 1.—The second international convention of the Universal Negro Improvement association and African committee of the West Indies, Central and South America and Africa was in attendance.

The convention, which will be in session until Aug. 4, is to consider the future government of the colored race.

Announced by Marcus Harvey, who signs himself the High Priest, the convention will be held in the Hotel Commodore, New York.

The convention opens with a parade through Harlem, which was fol-

lowed by a meeting addressed by

Harvey and other speakers.

Late Statistic Show Japan's Chief Market in Far East

Ottawa. Aug. 1.—(Canadian Press)—Japan is becoming the chief market for Canadian timber, especially in the Far East, according to statistics of the department of trade and commerce.

The principal commodities exported to Japan last year included a sulphite wood pulp, and three quarters of a million dollars worth of matches; over half a million dollars of fine nickel and silver spelter, and copper sulphide.

Strawberries and currants are the

most important articles of various

commodities.

Reason Why There Should Not Be Abundance on the Prairies

TORONTO. Aug. 1.—There is no reason in the world why there should not be abundance on the Prairies, says Mr. Harry Hart, president of the Royal Canadian Forestry Commission, who was speaking at a meeting of the Canadian Institute of Agriculture.

He said that the Prairies have a great deal of land available for cultivation.

Board of Trade President Is Impressed With Mineral And Pulp Wealth of North

"Not oil so much but the great expanses of mineral wealth and the great pulp reserves are the one best asset we have," said Mr. Woods. "The word that Sidney H. Woods, Board of Trade president, brings back from the great north land is a result of a business trip that took him beyond Alberta and into the far northern part of the North West Territories as far as Fort Smith.

The Board of Trade president came back from too high up in the great wilderness of the north—and it is a great wilderness he says. It is wealth he unvisited and unmet with still awaiting development and destined to bring in the greatest mineral production the world has ever seen.

"One of the most remarkable of this country's geologists who travelled over the great north land and went toward the North West Territories and said that in fact there is the greatest mineral land God made."

Mr. Woods, who remarked Mr. Woods to the Bulletin.

The abundance of mineral wealth in the great Slave district was especially referred to by Mr. Woods who from his trip sees in that territory the potentialities unequaled.

The great pulp properties in the lower reaches of the Peace River and in the Slave River country are unquestioned and Mr. Woods considers that there is an sufficient market for the world's demand of the great pulp wood in the world.

The value of this pulp wood is one of the outstanding factors of the north, but a factor which, in the opinion of Mr. Woods, has been very much underestimated.

He returned home back to Edmonton news of the great necessity of the establishment of some form of communication in the north. At the present time, he says, the great stretches between Fort McMurray and Fort Chipewyan and Fort McMurray are without any means of communication. He had no idea as to the total absence of communication, Mr. Woods remarks, but he did say that he had no idea as to the distance between the two towns which he was returning on his trip home. He had to depend on the Peace River for his news. He reasons now that the recent election could not be gauged.

"The north country must have means of communication before it can be one of the first duties of the government, in view of the present situation," he said.

A form of wireless communication is needed into the great wilderness of the north, he said, and the Board of Trade president decided.

The greatest volume of traffic into the north country, Mr. Woods says, is in the north service of the Bullion and Mining Monday declared there was bound to be an increase "in the amount of traffic in the north with the succession of seasons."

Just how fast this development will proceed, he said, is hard to tell, but it will solely and entirely upon the amount of oil that will be found in the north and the Dominion of Canada gives to the people who are willing to go ahead with it.

We must not stand in the way of progress, while looking at our northern development in view, but we must help them to all the extent of our power," he said. "We will do our best to see that we will be the quickened development that the development of the north country."

ADVISOR OF TRADE PRESIDENT

Great possibilities lie ahead of the Albertans, he said. What Mr. Woods thinks. And the realization of these will depend upon the ability of the government to implement his ideas in placing its services with the demands of trade.

It is certain, in the opinion of the board of trade president, that Murray will surely be the preferred successor to Mr. Woods. He is well aware of the fact that the route is "bare" hundreds miles shorter than Peace River.

The natural beauties of the trip will impress every member of the board of trade president. He had seen nothing similar before, and to the natural beauty of the north the magnificence of the rivers voyage.

"We are in the middle of the mammoth library of the ocean," he declares.

And added to this is the fact that most of the rivers are the gigantic northern river precursors with the demands of trade.

It is certain, in the opinion of the board of trade president, that Murray will surely be the preferred successor to Mr. Woods. He is well aware of the fact that the route is "bare" hundreds miles shorter than Peace River.

The natural beauties of the trip will impress every member of the board of trade president. He had seen nothing similar before, and to the natural beauty of the north the magnificence of the rivers voyage.

"We are in the middle of the mammoth library of the ocean," he declares.

And added to this is the fact that most of the rivers are the gigantic northern river precursors with the demands of trade.

It is certain, in the opinion of the board of trade president, that Murray will surely be the preferred successor to Mr. Woods. He is well aware of the fact that the route is "bare" hundreds miles shorter than Peace River.

Mr. Woods went north on private business, but he was invited to speak at Fort Smith. He travelled on the Canadian and British Columbia railway as far as Peace River, and then took the "western" through the Vermilion Chutes. Of this, Mr. Woods said that he had never seen more delightful. He also travelled on "The Slave River," and was a week down the river and about ten days coming back.

The Cuttings Hotel Trip

On Body and Face, Red and Itchy, Cried For Hours. Lasted A Year.

"A rash started all over my little girl's body, and she had some on her face, and it got worse and worse. She was full of waste, and it got red and itchy. She had to stay in bed for a year."

"Then I used with a special soap—Cuticura Soap and Ointment. I bought more, and I used it twice a day, and there was no more trouble with her skin."

(Signed) Mrs. Dora Langley, 1022 St. Paul St., Verdun, Que., August 11, 1921.

The Cuttings Hotel Trip

Concen-ticura Soap and Ointment is an indispensable adjunct to your personal care, maintaining skin purity and health.

HALF MILLION IN GOLD BOND ISSUE SOLD TO JULY 31st

Over half a million of the latest gold bonds were sold in the month of June up to the end of July, and during the month of July another half million were sold.

Withdrawals were also heavy, and the net purchase was approximately \$275,000.

The net purchase of savings bonds for the year has been \$1,141,870.

WHEAT WAS CUT AT SEDGWICK LAST THURSDAY

Cinged, natural started cutting his Ruby wheat on July 24th—Sedgewick, July 25th.

Cropdusters are beginning to make their appearance throughout the country.

A small amount of hay was reported to the northeast of Sedgewick last July 25th.

Liners Await Coming of August Off Sandy Hook

New York, Aug. 1.—Two transatlantic liners started cutting their Ruby wheat on July 24th—Sedgewick, July 25th.

REGINA PEPPER BOXES TOOK LONG END OF UNEVEN SCORE THOUGH PLAY WAS THE BEST

Both Teams Displayed All Kinds of Energy Which Drew Plaudits of Great Crowd—Al Zweifel Nearly Tied Whitewash Brush to the Eskimos

** * * Special to the Bulletin **
REGINA, Sask., August 1.— There were nine paper houses pulled down by the score against the far-famed Regina Eskimos yesterday afternoon, and as a result the locals tucked away the final game to a draw.

The Eskimos were more one-sided than usual. Regina-Edmonton games don't get very far along before they're set-to from the belt. Played in fast time, the players of both teams exhibited such vim and vigor that when their exhaustions made a big hit with the crowd.

There was one very good reason why the Eskimos were so good. That reason was Zweifel. That reason was Al Zweifel, who looked as he did last year when he was the best pitcher in the peewee teams who became too familiar with him.

At the end of the whitewash brush on the Eskimos, a spirited rally by the athletes of Galt Gleichen brought

GRAY DORT BEAT AMES-HOLDEN NINE

Last night in a fast baseball game at Boyle street grounds, the Gray-Dort team beat the Ames-Holden nine. Hougham home run put in the first run for the Gray-Dort, and the team did not let up till the finish.

The Ames-Holden nine, however, were very much in trouble. The score by Ames-Holden 2 4 2 4 2 1 8—24. Gray-Dort 2 4 2 4 2 1 8—24. Olson, Wallace, and Barkers: E. Vanderven and Ward.

BOB M'DONALD LED FIELD IN TORONTO GOLF

Chicago Man Played 36 Holes in 145—Entries in Tournament Total 150

TORONTO, Aug. 1.— Bob McDonald, of the Bob-o-Link club, Chicago, led the field tonight at the end of the first day's play in the Canadian golf championship, the first thirty-six holes with a score of 145. There is an entry of 130 of the most prominent golfers gathered here for the tournament at the opening of the season.

TUESDAY, AUGUST 2, 1921.

No Crop Damage In
The Edmonton District

The Canadian farmer has not been having things altogether to his liking this summer, but the master of weather, from the Atlantic seaboard to the Great Lakes an early and prolonged drought started the crop growing season off with a bad and hopeless forecast. Quebec computes its loss from this cause at \$200,000,000. The army worm and the forest fire, due largely to the dry weather, played havoc with the Manitoba prairie. In Ontario the fruit suffered as well as the field crops, while the corn borer has been eating the hearts out of the ears of Indian corn, the feed corn of the western provinces, and discounting the outlook for Johnny cake and corn meal porridge.

Over the prairie country generally conditions have been favorable and the prospect is for a good crop in most parts and a fair crop almost everywhere. But even in the west the situation has not been without difficulties, and it would be difficult to find a section of the continent where there was no little rain, despite the operations of Mr. Hatfield. Manitoba and Saskatchewan report more or less damage from rain and snow. In sections of all three provinces the Governments and the farmers have been fighting a grasshopper plague which has been so bad that it has not been greater than usual, or greater than has to be expected in any equally large area of farming country in the central basin of the continent.

The people of central and northern Alberta may congratulate themselves that they have had the best the season provided anywhere in the western prairies from crop failure and crop losses. Even the potato bug is unknown in these parts, and the 40,000 acres of spuds growing hereabouts have never known the taste of Paris green.

There have been seasons when some kinds of crops yielded more heavily than is promised. There have been seasons when certain other kinds of crops have been abundantly suited to their peculiar arities. There has never been a season here or elsewhere, when the crops were more free from damage, pests and disease. There has never been a season complete and absolute, from the factors which have kept the statisticians busy deducing percentages, than the present year. The fields in the other parts of Canada and of the continent. There is nothing the matter with the horses in this part of Alberta, and at no time in the season have they been more alert, more willing to work under adverse conditions or enemies of any kind. In that respect a more favorable year was never known here or elsewhere.

We almost every other farming district on the continent has had to report the presence of some pest or blight or seriously adverse condition, the freedom of the land from which the drawbacks of all kinds is worth making a note of, and worth letting the world know about. For the soil and sufficient water and sun to make the growth do not in themselves guarantee the farmer a crop, nor ensure a successful year from a farming country. The grasshopper never does damage where there are no crops to be

eaten. Rust cannot spoil the prospect where there is not a promise of a harvest. Those districts in the west which now are regretting the lack of rain and the lack of snow in view of damage from these and other causes had the soil and the moisture and the sunshine. When they lacked both the immunity factor, and that for some reason has been given to the crops in central and northern Alberta. Be the reasons what they may, the fact is the important point that the year has had and is having the most completely favorable crop season that has blessed any part of Canada or of the continent. There is "not a thing" the matter with the crops in this district.

Getting Results.

Washington notes that in United States cities food prices are going up. In other words, that the consumer is paying the tariff.

Another Rival.

Commissioner Vorath is not doubt right that the owners of private automobiles who pick up people at gas stations, or in town, or in the country, are taking more business away from the street railway than the jitneys are. It is a kindly act, and the public should speak up for the rights of the automobile owners. But the street railway badly needs the fares.

Hoist, etc.

"Hoist, etc." we did not say what he was reported to have said that the King said to Lloyd George. His Lordship might buy a few papers in the United States and then be able to get his views published in them. He has apparently fallen foul of some U.S. newspapermen who have his own talent for publishing sensational interviews, with a like disregard for what happened to the party interviewed.

The One Thing Needful.

The general manager of the International Brotherhood of Rail-road Clerks says that strike ballots are being distributed among the members in the United States and Canada, and that the unions intend to fight a strike resolution in the fall. This only means that there is a fair possibility of a strike on the railways on both sides of the line. It is to be hoped that it will not come to that.

We live by the export of manufactures and the import of food and raw materials. With us it pays to pay for the other. Unlike France, which feeds itself and is self-contained, we perish when we are cut off from the outside world. Let us end.

Our overseas trade has broken down. The war was delivered it a deadly blow. The coal strike has sealed it, and the coming of civilization would be sealed. And the key to the problem is in our hands.

Two things stand between us and the Irish, the Irish infamy and the Japanese Treaty. Remove these, and the sky is clear.

But while the Treaty with Japan continues in its present form there can be no secure compact with America.

How can we expect the trust of the United States while it sees the British navy in command of the Atlantic and the Japanese navy in command of the Pacific? We must have an alliance with both! What would be our apprehensions in such circumstances?

And what do we gain from the enormous cost of our foreign imports?

I make no comment as to causes because I am merely stating facts.

The chairman of our board of trade stated a few days ago that basic pig-iron was being sold in Belgium at one-half the cost of production here.

And so on.

THE TRADE SLUMP.

See the results. Our trade returns are melting like snows in May. Our unemployed are increasing like flies in June. Business premises in London are slumped to one-fifth of their rent a year ago. Great firms are trembling on the brink of ruin.

And in that same month the price of coal has fallen to Russia as a whole, but not to India, and the iron and steel markets are in a bust.

What of the national finance?

The Budget, less than three months old, is wrecked. The money is not coming in as Mr. Chamberlain had reckoned; the expenditure is out of hand.

We shall not be millions to the bad on the year. We shall be hundreds of millions to the bad in the year to come.

And this week the Chancellor has announced a new loan—5 per cent. at 97, practically 6 per cent. to carry on and to extinguish borrowings at 5 per cent.

In part the Government has tried to help the farmers and the laborers of the fields in the other parts of Canada and of the continent. There should be more than enough of food in the rest of the world to meet the demand.

Samara, in the far east of Siberia, is about 600 miles south-easterly from Moscow.

Regina Fair Opens

With the Weather Conditions Perfect

Regina, Aug. 1.—Under perfect weather conditions the provincial exhibition was opened yesterday. Every prospect of being the best in the west was realized. The exhibits are here in greater numbers than ever before and the larger number of visitors than ever before.

A heavy rain fell in the district last night but a warm sun and a gentle breeze were drying up the grounds and helping the farmers with their work.

Today is children's day and was another success. Automobiles picked up children all along the road to the fair, and the bands were playing on the grounds and helping the farmers with their work.

Today is children's day and was another success. Automobiles picked up children all along the road to the fair, and the bands were playing on the grounds and helping the farmers with their work.

Judging starts Thursday morning.

It is ominously like the origin of the coal strike. That, too, began with regulation.

ANTI-WASTE FOOLERY.

When the regulation is put to stand, when the catastrophe ends? Will it not be checked by parrot-cries of "Anti-Waste."

Any duce can christen himself an "Anti-Waste" candidate with a flourish of the pen.

Today is children's day and was another success. Automobiles picked up children all along the road to the fair, and the bands were playing on the grounds and helping the farmers with their work.
